Samuel Burbano

I'm a really curious developer, web enthusiast and self-learner.
Always looking for the best in practices, code, performance and being always at the last tech vanguardism.
I love software communities and OpenSource in general because of it's rich ecosystem to learn and contribute, as well as an enthusiastic of Knowledge Transfer in any team I join to learn and teach about any technology.

Work experience

Senior Software Engineer
Jan 2022 - Oct 2022

Hip eCommerce

Creating a multi-vertical eCommerce site for Collectibles using Vue/Nuxt hybrid to the classic site built with PHP. Made custom APIs and functionallities on the Backend for a new RealTime system as well as to transfer old functionalities for the new platform.

Engineering Lead
May 2022 - Jul 2022

Hip eCommerce

Lead a team of fullstack engineers maintaining existing functionallity, implementing new features and tools for Analytics, as well as build a RealTime system for Bidding on Collectibles. Also made improvements in performance of the site and refactors.

Senior Frontend Engineer
Feb 2021 - Jan 2022

Hip eCommerce

Creating a multi-vertical eCommerce site for Collectibles using Vue/Nuxt hybrid to the classic site built with PHP. Made a custom CMS Map implementation for Hybrid Rendering with Nuxt.
